It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

Melodic Diatonic Intervals

You will hear two notes, one after the other. Choose the name of the distance between them.

1. **Listen to the two notes**
   Press Play to hear the first note followed by the second. Notice how far apart they sound. You can listen again whenever you need to.

2. **Choose the interval**
   An interval is the distance between two notes. Select the answer that matches what you hear, such as Major 3rd.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

One after the other

C → E

Example answer

Major 3rd

In this visual example, C and E are a major 3rd apart. Choose Major 3rd for that distance. During the quiz, listen for the distance between the notes you hear; the notes may have different names.

What changes in this quiz?
