YOUR CATEGORY GUIDE

Modal Harmony

Hear a bass note and a triad together, then choose their full modal-colour label.

What you are practising

Hear a bass note and a triad together, then choose their full modal-colour label.

Why it helps

Recognise the sound of an upper chord in relation to a steady bass note.

It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

Modal Harmony #1

You will hear one bass note with a major three-note chord above it. Choose the full label that matches the combined sound.

1. **Listen to the combined sound**

   Press Play to hear the bass note and the three higher notes together. Listen for the lower note underneath the chord. You can listen again whenever you need to.

2. **Choose the matching label**

   Each answer gives a modal name and the upper chord's relationship to the bass. Choose the whole label, not just the modal name. The bass is always C in this lesson.

3. **Submit your answer**

   When you are ready, press Submit Answer. You can change your choice before you submit.

D major

F♯ A D

C

Bass note · played with all the notes above

Example answer

Lydian Dominant · II Major

D major is built on D, the second note above C in the C major scale. The full answer is Lydian Dominant · II Major. The bass C and all three upper notes sound at the same time. This is a visual example.

What changes in this quiz?

A triad is a chord made of three notes. In this quiz, a single bass note sits below a major triad. The modal names label the colours taught for these bass-and-chord combinations. The Roman numerals describe where the upper chord is built relative to the bass. For example, II means the second note and V means the fifth. With C as the bass, those notes are D and G. A ♭ before a numeral lowers that note by one keyboard step, counting both white and black keys. This lesson keeps C as the bass throughout. Each combination has two arrangements of the upper notes. Choose the same label for either arrangement; there is no separate inversion answer.

Answer choices

Phrygian · ♭II Major | Lydian Dominant · II Major | Aeolian · ♭III Major | Lydian Augmented · III Major | Ionian · V Major

QUIZ INSTRUCTIONS

Modal Harmony #2

You will hear one bass note with a major three-note chord above it. Choose the full label that matches the combined sound.

1. **Listen to the combined sound**

   Press Play to hear the bass note and the three higher notes together. Listen for the lower note underneath the chord. You can listen again whenever you need to.

2. **Choose the matching label**

   Each answer gives a modal name and the upper chord's relationship to the bass. Choose the whole label, not just the modal name. The bass can be any of the twelve notes. Listen for how the upper chord relates to it.

3. **Submit your answer**

   When you are ready, press Submit Answer. You can change your choice before you submit.

B ♭ major

F | B ♭ | D

C

Bass note · played with all the notes above

Example answer

Mixolydian · ♭VII Major

B ♭ major over C bass gives the sound labelled Mixolydian · ♭VII Major in this lesson. ♭VII identifies the upper chord's root, B ♭, relative to C. The bass C and all three upper notes sound at the same time. This is a visual example.
