YOUR CATEGORY GUIDE

9th Degree Chords

Recognise seventh chords with an added ninth.

What you are practising

Recognise seventh chords with an added ninth.

Why it helps

Build confidence with fuller chord sounds and the differences between their added notes.

It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

9th Degree Chords · Level 1

You will hear a seventh chord with an extra note added. Choose the ninth-chord type that matches the sound.

1. **Listen to the whole chord**
   Press Play and listen to the notes together. Notice the overall sound, rather than trying to name every note. You can listen again whenever you need to.

2. **Choose the chord type**
   Select Major 9th, Minor 9th, Diminished 7(9), Dominant 9th, Minor 9(♭5) or Dominant 7(♭9). Choose the one that matches what you hear.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

F A C E G

Example answer

Major 9th

This visual example is F major ninth. Choose Major 9th. The same chord type can have its notes arranged differently, so listen to the whole chord.

What changes in this quiz?

These chords combine a seventh chord with a ninth. For example, F major seventh uses F, A, C and E. Adding G makes F major ninth. Unlike an add 9 chord, these chords include a seventh as well. Minor 9(♭5) has a lowered fifth; Dominant 7(♭9) has a lowered ninth. The ♭ symbol means that note is one keyboard step lower, counting both white and black keys. This lesson uses chords built on F. The chords start with their root, the note they are named after, at the bottom. Choose only the chord type; there is no separate inversion answer.

Answer choices

Major 9th | Minor 9th | Diminished 7(9) | Dominant 9th | Minor 9(♭5) | Dominant 7(♭9)

QUIZ INSTRUCTIONS

9th Degree Chords · Level 2

You will hear a seventh chord with an extra note added. Choose the ninth-chord type that matches the sound.

1. **Listen to the whole chord**
   Press Play and listen to the notes together. Notice the overall sound, rather than trying to name every note. You can listen again whenever you need to.

2. **Choose the chord type**
   Select Major 9th, Minor 9th, Diminished 7(9), Dominant 9th, Minor 9(♭5) or Dominant 7(♭9). Choose the one that matches what you hear.

3. **Submit your answer**
