It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

Add 9 · Level 1

You will hear a three-note chord with one extra note added. Choose the add 9 chord type that matches the sound.

1. **Listen to the whole chord**
   Press Play to hear the four notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the chord type**
   Select Major add 9, Minor add 9, Diminished add 9 or Augmented add 9. The extra note is present in every answer, so listen for the type of chord underneath it.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

F	G	A	C

Example answer

Major add 9

This visual example shows F major with an added G. Choose Major add 9. In the quiz, choose the chord type you hear, even when the notes are arranged differently.

What changes in this quiz?

An add 9 chord starts with a triad, a chord made of three notes, and adds one more note called the ninth. For example, F major uses F, A and C. Adding G makes F major add 9. That extra note can sit between the other notes, so it does not have to be the highest sound. This lesson uses chords built on F. The notes are kept in a close layout. The chords use one arrangement throughout this lesson. Choose only the chord type; there is no separate inversion answer.

Answer choices

Major add 9 | Minor add 9 | Diminished add 9 | Augmented add 9

QUIZ INSTRUCTIONS

Add 9 · Level 2

You will hear a three-note chord with one extra note added. Choose the add 9 chord type that matches the sound.

1. **Listen to the whole chord**
   Press Play to hear the four notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the chord type**
   Select Major add 9, Minor add 9, Diminished add 9 or Augmented add 9. The extra note is present in every answer, so listen for the type of chord underneath it.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.
