YOUR CATEGORY GUIDE

Basic Triads

Hear a three-note chord and recognise its type and, where requested, its position.

What you are practising

Hear a three-note chord and recognise its type and, where requested, its position.

Why it helps

Learn the sound of the basic chord families before moving on to added notes.

It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

Basic Triads · Level 1

You will hear three notes played together. Choose the chord type that matches the sound.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the chord type**
   Choose Major, Minor, Diminished, Augmented, Suspended. These names describe the different sounds a chord can have.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

F	A	C

Example answer

Major

This visual example is F major. Choose Major. During the quiz, choose the type of chord you hear.

What changes in this quiz?

A triad is a chord made of three notes. “Chord quality” means its type, such as major or minor. The chords in this lesson are built on F. The notes are played in a close layout, with the three chord notes next to each other. Your answer is the chord type. You do not need to choose a note name or a chord position. Both suspended shapes, sus2 and sus4, use the answer Suspended.

Answer choices

Major | Minor | Diminished | Augmented | Suspended

QUIZ INSTRUCTIONS

Basic Triads · Level 2

You will hear three notes played together. Choose the chord type that matches the sound.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the chord type**
   Choose Major, Minor, Diminished, Augmented, Suspended. These names describe the different sounds a chord can have.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

F	A	C

Example answer

Major

This visual example is F major. Choose Major. During the quiz, choose the type of chord you hear.

What changes in this quiz?

A triad is a chord made of three notes. “Chord quality” means its type, such as major or minor. The chords use all twelve keys, so the same chord type can begin on different notes. The notes are played in a close layout, with the three chord notes next to each other. Your answer is the chord type. You do not need to choose a note name or a chord position. Both suspended shapes, sus2 and sus4, use the answer Suspended.

Answer choices

Major | Minor | Diminished | Augmented | Suspended

QUIZ INSTRUCTIONS

Basic Triads · Level 3

You will hear three notes played together. Choose the chord type that matches the sound.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the chord type**
   Choose Major, Minor, Diminished, Augmented, Suspended. These names describe the different sounds a chord can have.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

A (low)	F	C

Example answer

Major

This visual example is F major. Choose Major. During the quiz, choose the type of chord you hear.

What changes in this quiz?

A triad is a chord made of three notes. “Chord quality” means its type, such as major or minor. The chords in this lesson are built on F. The notes are spread out in a drop-2 layout. This means the middle note of a close three-note chord is moved down to the next lower version of that note. Your answer is the chord type. You do not need to choose a note name or a chord position. Both suspended shapes, sus2 and sus4, use the answer Suspended.

Answer choices

Major | Minor | Diminished | Augmented | Suspended

QUIZ INSTRUCTIONS

Basic Triads · Level 4

You will hear three notes played together. Choose the chord type that matches the sound.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the chord type**
   Choose Major, Minor, Diminished, Augmented, Suspended. These names describe the different sounds a chord can have.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

The notes are spread out in a drop-2 layout. This means the middle note of a close three-note chord is moved down to the next lower version of that note. Your answer is the chord type. You do not need to choose a note name or a chord position. Both suspended shapes, sus2 and sus4, use the answer Suspended.

Answer choices

Major | Minor | Diminished | Augmented | Suspended

QUIZ INSTRUCTIONS

Basic Triads · Level 5

You will hear three notes played together. Choose the chord type and the inversion, which describes how its notes are arranged.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the type and position**
   First select Major, Minor, Diminished, Augmented, Suspended. Then select Root Position, 1st Inversion or 2nd Inversion.

3. **Submit your answer**
   Check that you have chosen both a chord type and an inversion. When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

A	C	F

Example answer

Major

Also choose: 1st Inversion

This visual example is F major. Choose Major and 1st Inversion. A is the third of F major, and it is the lowest note.

What changes in this quiz?

A triad is a chord made of three notes. “Chord quality” means its type, such as major or minor. The chords in this lesson are built on F. The notes are played in a close layout, with the three chord notes next to each other. For close chords, root position puts the root at the bottom, first inversion puts the third at the bottom, and second inversion puts the fifth at the bottom. The root is the note the chord is named after; the third and fifth are its other two notes. Both suspended shapes, sus2 and sus4, use the answer Suspended.

Answer choices

Major | Minor | Diminished | Augmented | Suspended

Also choose the position

Root Position | 1st Inversion | 2nd Inversion

QUIZ INSTRUCTIONS

Basic Triads · Level 6

You will hear three notes played together. Choose the chord type and the inversion, which describes how its notes are arranged.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the type and position**
   First select Major, Minor, Diminished. Then select Root Position, 1st Inversion or 2nd Inversion.

3. **Submit your answer**
   Check that you have chosen both a chord type and an inversion. When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

A	C	F

Example answer

Major

Also choose: 1st Inversion

This visual example is F major. Choose Major and 1st Inversion. A is the third of F major, and it is the lowest note.

What changes in this quiz?

A triad is a chord made of three notes. “Chord quality” means its type, such as major or minor. The chords use all twelve keys, so the same chord type can begin on different notes. The notes are played in a close layout, with the three chord notes next to each other. For close chords, root position puts the root at the bottom, first inversion puts the third at the bottom, and second inversion puts the fifth at the bottom. The root is the note the chord is named after; the third and fifth are its other two notes. This lesson offers Major, Minor and Diminished.

Answer choices

Major | Minor | Diminished

Also choose the position

Root Position | 1st Inversion | 2nd Inversion

QUIZ INSTRUCTIONS

Basic Triads · Level 7

You will hear three notes played together. Choose the chord type and the inversion, which describes how its notes are arranged.

1. **Listen to the chord**
   Press Play to hear all three notes together. Listen to the sound they make as a group. You can listen again whenever you need to.

2. **Choose the type and position**
   First select Major, Minor, Diminished, Augmented, Suspended. Then select Root Position, 1st Inversion or 2nd Inversion.

3. **Submit your answer**
   Check that you have chosen both a chord type and an inversion. When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

C (low)	A	F

Example answer

Major

Also choose: 1st Inversion

This visual example is F major. Choose Major and 1st Inversion. The inversion refers to the A–C–F shape before it is spread out.

What changes in this quiz?

A triad is a chord made of three notes. “Chord quality” means its type, such as major or minor. The chords in this lesson are built on F. The notes are spread out in a drop-2 layout. This means the middle note of a close three-note chord is moved down to the next lower version of that note.
