YOUR CATEGORY GUIDE

Dominant Chord Extensions

Hear the extra notes above a dominant seventh chord.

What you are practising

Hear the extra notes above a dominant seventh chord.

Why it helps

Tell natural and altered extensions apart while the dominant seventh stays given.

Start with the page for your quiz.
It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

Dominant Chord Extensions · Level 1

Dominant 7 is already given. Listen and select all the extra extensions you hear above that chord.

1. **Listen to the whole chord**

   Press Play and listen to how the extra notes change the dominant seventh chord. You can listen again whenever you need to.

2. **Select all the added extensions**

   Choose all the extensions present, such as ♭9 and ♯11, or 9 and 13. More than one answer is needed. Tap a selected extension again to remove it.

3. **Check and submit**

   Check every selected extension, then press Submit Answer. The seventh is already part of the given Dominant 7 chord, so there is no separate 7 button to choose.

What changes in this quiz?

A dominant seventh chord already contains four notes. In F, they are F, A, C and E ♭. This quiz asks which extra notes are added to that chord. The ♭ sign means a lowered note and ♯ means a raised note, by one keyboard step, counting white and black keys. Group 1 contains seven chords with a lowered ninth (♭9), a raised ninth (♯9), or both. This lesson uses chords built on F. The chords use their basic arrangement, with no doubled or shifted notes. Select every extension present. For example, a chord with both ♭9 and ♯9 needs both buttons selected.

QUIZ INSTRUCTIONS

Dominant Chord Extensions · Level 2

Dominant 7 is already given. Listen and select all the extra extensions you hear above that chord.

1. **Listen to the whole chord**

   Press Play and listen to how the extra notes change the dominant seventh chord. You can listen again whenever you need to.

2. **Select all the added extensions**

   Choose all the extensions present, such as ♭9 and ♯11, or 9 and 13. More than one answer is needed. Tap a selected extension again to remove it.

3. **Check and submit**

   Check every selected extension, then press Submit Answer. The seventh is already part of the given Dominant 7 chord, so there is no separate 7 button to choose.
