YOUR CATEGORY GUIDE

Secondary 9th Chords

Recognise ninth chords with less familiar combinations of chord notes.

What you are practising

Recognise ninth chords with less familiar combinations of chord notes.

Why it helps

Hear how a different fifth or seventh changes the colour of a ninth chord.

It explains what to listen for, what to choose, and what changes at that level. Green selections are worked examples, not answers to your next question.

QUIZ INSTRUCTIONS

Secondary 9th Chords · Level 1

You will hear a ninth chord with a different combination of chord notes. Choose the chord type that matches the sound.

1. **Listen to the whole chord**
   Press Play and listen to the notes together. Notice the overall sound, rather than trying to name every note. You can listen again whenever you need to.

2. **Choose the chord type**
   Choose the chord name that matches what you hear. The answer buttons show the six chord types used in this lesson.

3. **Submit your answer**
   When you are ready, press Submit Answer. You can change your choice before you submit.

Notes played together · low to high

F | A♭ | C | E | G

Example answer

Minor-Major 9th

This visual example is F minor-major ninth. Choose Minor-Major 9th. During the quiz, choose the type of chord you hear, even when the notes are arranged differently.

What changes in this quiz?

These ninth chords use different combinations of chord notes. For example, Minor-Major 9th combines a minor three-note chord with a major seventh and a ninth. In F, those notes are F, A♭, C, E and G. In the answer names, ♭5 means the fifth is lowered by one keyboard step, and ♯5 means it is raised by one keyboard step, counting both white and black keys. This lesson uses chords built on F. The root, the note the chord is named after, stays at the bottom. Choose only the chord type; there is no separate inversion answer.

Answer choices

Major 9(♯5) | Diminished-Major 9th | Dominant 9(♭5) | Minor-Major 9th | Augmented 9th | Major 9(♭5)

QUIZ INSTRUCTIONS

Secondary 9th Chords · Level 2

You will hear a ninth chord with a different combination of chord notes. Choose the chord type that matches the sound.

1. **Listen to the whole chord**
   Press Play and listen to the notes together. Notice the overall sound, rather than trying to name every note. You can listen again whenever you need to.

2. **Choose the chord type**
   Choose the chord name that matches what you hear. The answer buttons show the six chord types used in this lesson.

3. **Submit your answer**
